ABOUT ME

My architectural practice covers projects of various scales and uses — from public spaces and cultural buildings to residential buildings.

In my work I combine a creative approach, functionality and attention to detail. I have experience designing new buildings, reconstruction and major renovation.

I am interested in sustainable and energy-efficient architecture, modern technologies and new digital tools in architectural practice.

EDUCATION

09.2017 — 04.2024
National Technical University of Athens
School of Architecture · architectural engineer, Integrated Master's Diploma

2006 — 2012
Saint Petersburg State University
Master's degree

1993 — 2000
G. V. Sviridov Children's School of Arts
Fine arts department: painting, drawing, sculpture, composition

AWARDS

2021
1st place · Hellenic Passive House Institute Architectural Student Competition 2021
As a member of team CRE8. Reconstruction of an industrial building into an office complex to the Passive House standard

WORK EXPERIENCE

03.2025 — present
Architect
Private practice
- Working documentation for the major renovation of residential premises, including old housing stock
- 3D visualisations; selection of finishing materials and equipment
- Designer's supervision; liaison with the client, contractors and consultants

09.2024 — 04.2026
Design architect
Arbitrium LLC
- Ran the whole architectural section (AR) under the chief project engineer: major renovation, state expert review
- Compiled the complete AR documentation set; drawings and 3D models in AutoCAD and Revit
- Room and finishes schedules
- Coordination with the structural, HVAC and electrical sections
- Revisions after expert review (Russian codes SP, SNiP, GOST, Federal Law 123-FZ, accessibility)

10.2022 — 04.2024
Architect intern
National Technical University of Athens
- Architectural concepts and physical models; analysis and presentation of research
- Design of residential and public spaces; landscaping
- Drawings and diagrams in CAD/BIM; parametric modelling (Grasshopper); 3D visualisation
- Design and reporting documentation; presentations

10.2019 — 02.2020
Restoration architect
National Technical University of Athens · Christos Rachon, Ikaria, Greece
- Analysis of traditional settlements and historic buildings
- Field studies and measured surveys of buildings
- Recording buildings: sketches, photographs, plans, sections, elevations
